

48Vdc solar kit for red medium intensity obstafash 48Vdc

Advantages

- ✦ Initial capacity of the battery with at least 6 days of autonomy which optimize the lifetime of the battery and minimize the maintenance cost to none
- ✦ our regulator controls the light for night only operation and protects the battery against overcharges and deep discharges
- ✦ The exact size of our solar panel and battery capacity depend on latitude/longitude

Mechanical Characteristics

Attachment	2 brackets for vertical or horizontal leg
------------	---
