

## 48V-SOLAR-KIT-360WP [P/N: 113656-48-360WP]

**48Vdc solar kit for red medium intensity obstaflash 48Vdc**

### Advantages

- Initial capacity of the battery with at least 6 days of autonomy which optimize the lifetime of the battery and minimize the maintenance cost to none
- our regulator controls the light for night only operation and protects the battery against overcharges and deep discharges
- The exact size of our solar panel and battery capacity depend on latitude/longitude

### Mechanical Characteristics

Attachment

2 brackets for vertical or horizontal leg
