

48V-SOLAR-KIT-360WP [P/N: 113656-48-360WP]

48Vdc solar kit for red medium intensity obstaflash 48Vdc

Advantages

- Initial capacity of the battery with at least 6 days of autonomy which optimize the lifetime of the battery and minimize the maintenance cost to none
- our regulator controls the light for night only operation and protects the battery against overcharges and deep discharges
- ▸ The exact size of our solar panel and battery capacity depend on latitude/longitude

Mechanical Characteristics	
Attachment	2 brackets for vertical or horizontal leg
