

## Monitoring and control box

- cable inputs by gland nickel plated brass
- 8 terminal connections for max 8 medium intensity lights and/or side lights red fixed or mimic with medium intensity red flashing
- Individual alarm (normally closed and normally open both available) and visual indicator for each light (or group of light)
- surge protection
- connection of optional photocell
- alarm (normally closed and normally open both available) for the photocell and for the power supply
- on/off switch and remote/manual switch to bypass the photocell

| Electrical Characteristics |  |
|----------------------------|--|
| Wattage                    | 10W max (controller)                                 |
| Main voltage               | 48VDC (-10%; +15%)                                   |
| Max. admissible current    | 10A  |
| Mechanical Characteristics |  |
| IP degree                  | IP65 in vertical position                            |
| Weight                     | 3,5kg  |
| Weight                     | 3,5kg  |
| Size of the power supply   | 344mm (height) x 346mm (width) x 166mm (dept)        |
| Cable entry diameter       | from 7 to 13 mm                                      |
| Wire cross section         | up to 6mm² for power supply, up to 2,5mm² for signal |
| Attachment                 | 4 screws type M5                                     |
