

Insulation cabinet for 230VAC obstruction lighting system in secondary and 230VAC or 380VAC+N in primary

- ✦ Enclosure with breathable vent
- ✦ Insulation transformer with 7,5KV
- ✦ Voltage on the primary 230VAC and 380VAC +N, 230VAC in the secondary
- ✦ Type 1+2 surge protection in primary side and secondary side
- ✦ Switch

Electrical Characteristics	
Wattage	630W max
Mechanical Characteristics	
Operating temperature	-20/+45°C
Size of the power supply	650mm (height) x 440mm (width) x 250mm (dept)
Weight	21.5kg
Attachment	4 wall mounting brackets
Standards	
Standards compliance	IEC 60076-11
